SCS Cloud, *NetSuite Developer,* remote, June 2022 - Present

- Design, maintain and develop NetSuite customizations using server and client side Javascript, HTML, Oracle SQL, REST APIs and XML.

- Draft and present solution designs to client's outlining technical and business strategies for solution implementations.

- Demo customizations to client's and engage in UAT testing alongside them.

Cipe Solutions, *Web Applications Developer,* West Palm Beach, Florida September 2019 - June 2022

- Designed and developed web integrations for business ERP platform connectwise and external facing websites Using PHP, Javascript, HTML, and css.

- Created Onboarding web forms for new and existing clients.

- Install, configure and troubleshoot commercial networking hardware.

TECHNICAL SKILLS

- Programming Languages: Java, C++, Visual Basic, Javascript, PHP, Oracle SQL, Python
- Tools and Technologies: Webstorm, Visual Studio, SQL Server, AWS, Git, PuTTy, JSON, Jira

TECHNICAL PROJECTS

Interactive Knowledge Base │ C#, REST API, Visual Studio

- Developed and presented an application that took current knowledge base questions and answers and presented them to the user step-by-step to be used for troubleshooting networking devices.

Honey-Approvals Contribution │ Javascript

- Contributed code that allowed for the use of Custom NetSuite records with SCS Cloud's popular application "Honey-Approvals".

Game Engine │ C++, SDL2, Visual Studio

- Created a 2D game engine using C++ and SDL2. Currently the engine can manage texture rendering and updating, collision detection, 2D Vector travel, and Finite game states.
